

# BUCKLE ENGRAVING

All buckles with engraving ribbons can be engraved by 3-D Belt Company.

**3-D offers black enamel filled engraving at \$0.50 per letter.**

When ordering engraving, take special care with spelling and clearly specify placement of engraving. A sample drawing can help avoid errors. It is important that you carefully proofread your order to catch any errors prior to ordering; we cannot be responsible for typographical errors!

We will only engrave buckles pulled and ordered from our warehouse. We will not engrave buckles that have already been shipped to an account.
